

Food Quality and Safety Policy

To provide safe food and increase the satisfaction of our customers, the policy at Compañía Bernal S.A. is to maintain a Food Safety and Quality Management System in compliance with the BRC Global Standard for Food Safety. We are committed to increasing effectiveness by implementing continuous improvements focused on achieving the best outcome for our Customers. It is the policy of Compañía Bernal S.A. that the products made here meet the highest standards of quality and safety, fully assuming this responsibility for our Customers. Management provides the resources and the necessary support to achieve compliance with this policy together with the objectives of quality and food safety, aimed at manufacturing safe, legal, authentic food that conforms to specified quality standards. We carry out our activities with respect for the environment, protecting the occupational health and industrial safety of our workforce, and complying with current legislation. All the members of Compañía Bernal S.A. are committed to ensuring that the activities carried out by our organization are distinguished by their quality and continuous improvement for the benefit of our Customers and our own sustainability.
